

About

We're located in the bustling metropolis of Chelsea, Michigan. We take some sand, a few gallons of compressed air, a great idea and throw it all at a piece of tile. The result? A very eclectic and unique piece of tile.

Chelsea Tileworx tiles can be used in a variety of ways:

- Display your Chelsea Tileworx tile on one of our stands available through our online store.

- Use them in the kitchen as a trivet

- They make great coasters!

- Give them away as a very unique gift. We can customize a tile for a wedding, births, anniversary, retirements, house-warming gifts, well, you get the idea.

- Chelsea Tileworx tiles make great fundraising products for schools and organizations.

Looking for a gift for that hard to shop for person? How about a gift for Grandma or Grandpa? We can take your child's hand tracing and etch it into a tile with their own handwritten name. All you have to do is outline your child's hand with a sharpie marker, have them write their name on the same piece of paper and scan and send it to us. We'll do the rest. This has been one of our more popular customizing methods. We recently completed 44 tiles for 2 local kindergarten classes. Needless to say the parents were very pleased with their year end gift.
