

## The Original Custom Handprint Tiles. A great alternative to all other handprint kits.

Have you ever made a handprint with one of those clay or polymer kits? I bet you've tried to get the handprint while your child sleeps (we have!). How about the pie tin and plaster handprint keepsakes that only crack and fall apart year after year? Our handprint tiles make great holiday and Christmas gifts as well as birthdays. They don't chip or crack like plaster. Any relative or friend will cherish this unique gift. Our most popular custom tile is the 6"x6" custom handprint tiles we create using your artwork. No clay, no polymer, no mess.

Our handprint tiles are a great alternative to the traditional handprint kits available, plus our clients think they look better too. Our process requires only a scan or a piece of paper with your child's handprint and handwritten name. We take care of the rest. Your handprint tile can be displayed on an easel, in the kitchen and used as a trivet or hotplate. We can also add a ribbon so you can hang it on the wall for all to see.

The process....easy. Sit down with your child and make a craft of it! Help them trace their handprint on a clean white piece of paper with a solid black (or dark colored) marker (Sharpies work best but PLEASE supervise), no pencils or pens please. Once the hand is traced, hand over the controls to them and let your child write their name (if they need help, that's ok). You can use a 8.5x11 sheet of plain white paper. The handwriting can be large and we'll scale it to fit the tile. The actual handprint size is kept intact.

The artwork WILL NOT wash off of the tile. It is etched into the surface of the tile.

Once you've got your artwork, scan it and email it to us or drop it in the mail. Once you have emailed it, please drop us an email or a phone call to let us know it's on the way. We'll have your tile done in about a week. Rush orders are available for an additional charge. Contact us for more info.
